MAIRIE DE PARIS

Welcome to ChangeNOW!

Whether you visit us as an entrepreneur, an investor, a corporate representative, a media or a public visitor, we're very proud to have you around!

ChangeNOW is one of the first international events organized on the topic of "innovations for good" and we're very glad to see that, from its first edition, 2000 mission-driven people have already responded enthusiastically to the invite.

It's also the first major event held within the walls of STATION F, the biggest startups campus in the world, which highlights the deep innovative DNA of the Positive Impact community.

Those two days have been built to share with you the latest of Positive Impact innovations around the world. Energy, Circular Economy, TechforGood, Education, Healthcare, Food security, Sustainable cities and mobility, Ocean Cleaning... many challenges of the UN Sustainable Development Goals are here addressed and scheduled on the agenda. Check your program and you should be able to work your way through the sessions, the 2 conference stages and the demo area!

Throughout your journey at STATION F, you'll have the chance to meet 115 projects and speakers coming from 20 countries, 100 investors, 50 media and hundreds of mission-driven participants like you.

Seize the most of those two days to initiate new acquaintances... you'll figure out quickly there's no shortage of networking opportunities - from the 1o1 meetings organized via our dedicated platform, to the Pitch Bar at the center of the Exhibition Hall - where all entrepreneurs will have the chance to pitch their initiatives.

In parallel to the Summit, the ChangeNOW Film Festival is organized throughout the weekend by Club de l'Etoile, to highlight the movies and documentaries addressing Positive Impact initiatives. Une Idée Folle, En Quête de Sens, Des Clics de Conscience... check the schedule and meet the cast after the screening!

Apart from the festival, two other side events are organized upon invitations:

- For entrepreneurs: a Pre-Meetup Party at the Social Bar on Thursday 28
- For Education stakeholders: a party held at the private residence of the Ambassador of Finland and featuring the HundrED network, on Saturday 30.

We'd like to thank our very committed partners who helped us put together each piece of this tremendous adventure, especially La French Tech and Accenture.

This event is placed under the patronage of the City of Paris and its carbon footprint will be fully compensated thanks to Pur Projet.

Last but not least: huge thank you to the team of volunteers who accepted to spend their Friday and Saturday helping us with the organization... you rock!

Finally, a word about us: we are a team of entrepreneurs eager to boost Positive Impact initiatives via big events. Our professional and personal records include tech, digital, marketing, communications, education, healthcare, retail, gaming, art... and even fruit sculpture! We've created ChangeNOW to start federating a community of people who are just like us - simple citizens eager to change the world.

Pleased to meet you!

INDEX OF PARTICIPANTS CHANGENOW 2017

80 Day Race B.V.

Netherlands, France

UN Sustainable Development Goals: Industry, innovation and infrastructure, Sustainable cities and communities, Climate action, Partnerships for the goals

80 Day Race is a competition, inspired by Jules Verne. A race around the world with only zero emission vehicles. Globally televised by National Geographic Channel, this will be the adventure creating future legends and setting the benchmark for sustainable racing.

News: Competition starts and finishes in Paris. Astana announced as 2nd host city. Ambassadors include Bertrand Piccard and Pierre Fillon Broadcasted globally. Hubert Auriol as Race Director

Contact: Frank Manders

Website: www.80dr.com

Accenture

120+ countries

UN Sustainable Development Goals: Quality education, Gender equality, Decent work and economic growth, Industry, Innovation and infrastructure, Reduced inequalities, Sustainable cities and communities, Responsible consumption and production, Climate action

Accenture leverages its global capabilities and digital experience to help drive innovative solutions for a wide range of societal issues, from equipping young people with job skills to helping close the gender gap. Through its Skills to Succeed initiative, Accenture's goal is to equip 3 million people by 2020 with the skills to get a job or build a business. With regards to diversity, Accenture has announced that it will achieve a gender-balanced workforce by 2025, as the company embraces diversity as a source of creativity and competitive advantage.

News: In France, Accenture has committed to reaching 50 percent of women new hires by 2020. Also in France, it has created a joint-venture to help underprivileged people access digital-related jobs

Contact: Francois Luu

Website: <https://www.accenture.com/fr>

ACCES, INCLUSIVE TECH

France

UN Sustainable Development Goals: Decent work and economic growth, Reduced inequalities

Acces, Inclusive Tech is a digital work integration social enterprise created in partnership by Ares, a leader in this domain, and the Accenture Foundation. Our ambition is to transform digital, usually a barrier to jobs for the underprivileged, into a factor of work inclusion.

News: 16 reintegrated employees since beginning of 2017. Service offering: IT services in Testing and Users' assistance, and Capacity services

Looking for: We need new customers, with whom we could make work more underprivileged people on our assignments

Contact: Jean-Christophe Arnaune

Website: www.acces-inclusivetech.fr

Acquisiloc SAS

France

UN Sustainable Development Goals: Responsible consumption and production

Acquisiloc is born from a simple idea: we can't always afford to treat ourselves with what we would like! What if we bought something together? We would then meet new people, spend less but better and planet Earth would be greener!

News: We have just launched our updated website, and our app comes out later this month. We will also introduce the same idea dedicated exclusively to the ever increasing mobile world, namely spubauto.com

Looking for: Raising funds to boost our marketing ability to showcase our innovative solutions

Contact: Christophe Vautrin

Website: separtagerunbien.com

Agriloops

France

UN Sustainable Development Goals: Clean water and sanitation, Industry, innovation and infrastructure, Responsible consumption and production, Climate action

At Agriloops, we are rethinking aquaculture for a sustainable, healthy and tasty production. We designed the first aquaponics farm in salty water, to raise fresh, sustainable and tasty shrimps in combination with the cultivation of vegetables (tomatoes and «Salad mix from the sea»).

News: This year we developed our POC in laboratory and thanks to our recent move, we will launch our prototype this autumn that will allow us to produce in real-life commercial situation

Looking for: Today we are working on our first fundraising of 800K€ to 1 000K€ to accelerate our project

Contact: Jérémie Cognard

Website: <http://www.agriloops.com/>

AQUASSAY

France

UN Sustainable Development Goals: Good health and well-being, Clean water and sanitation, Affordable and clean energy, Industry, Innovation and infrastructure, Sustainable cities and communities, Responsible consumption and production, Climate action

The water transition changes our uses in depth. AQUASSAY has developed an advanced real-time data flow management solution dedicated to water efficiency.

Subscribe to our e-water efficiency service to consume less, produce better and discharge less.

News: Cleantech Open France's 2016 winner, water & waste category

Cleantech Open's finalist 2016 in San Francisco

Elected among the start-up to follow in 2017 by Green Univers magazine

Looking for: Clients and commercial partners that will integrate our technology to their offers

Contact: Jean-Emmanuel Gilbert

Website: <http://www.aquassay.com/>

Architecture and Vision

Italy

UN Sustainable Development Goals: Clean water and sanitation, Affordable and clean energy, Decent work and economic growth, Sustainable cities and communities, Climate action

Architecture and vision (av) is a cutting edge practice involved in art, architecture, product and transportation design, known for developing elegant, ecological and economic solutions for our evolving planet.

News: Warka Tower beel built in Haiti crowdfunding started. Culture a Porter collection ... à la Mer! also in the crowdfunding stage.

Looking for: Support from the medias to spread the word and for visibility, support from the community.

Contact: Arturo Vittori

Website: <http://www.architectureandvision.com/>

Ashoka

France

UN Sustainable Development Goals: No poverty, Zero hunger, Good health and well-being, Quality education, Gender equality, Clean water and sanitation, Affordable and clean energy, Decent work and economic growth, Industry, innovation and infrastructure, Reduced inequalities, Sustainable cities and communities, Responsible consumption and production, Climate action, Life below water, Life on land, Peace, justice and strong institutions, Partnerships for the goals, Other

Ashoka is an NGO known for its rigor in finding people with a fundamentally new vision of how to address social and environmental issues. As the largest global network of social entrepreneurs, Ashoka has been identifying and supporting more than 3300 pioneers in 85 countries over 35 years.

News: Ashoka launched 2 initiatives at Station F: the Ashoka village @Station F: 80 workdesks for social entrepreneurs supported by Ashoka in their scale up. ShareIT: a tech for good accelerator

Looking for: the most innovative social entrepreneurs, companies or philanthropes to join the Ashoka network

Contact: Laura Zimer

Website: <http://www.ashoka.org/fr>

AsperTeam

France

UN Sustainable Development Goals: Good health and well-being, Quality education, Decent work and economic growth, Reduced inequalities, Partnerships for the goals

AsperTeam has developed the first connected device "My QVT" to facilitate the inclusion and to compensate the "social" handicap of people with asperger's syndrome and high functioning autism (HFA) in the professional area.

News: AsperTeam is the "bold women" contest winner launched by the Social Factory in 2017. Creation of a community for professional with Asperger to share their best practices in a "TEDx" video format

Looking for: An associate involved in programs to reduce inequalities investors Partnerships

Contact: Stéphanie Fouquet

Website: <http://www.asperteam.com/>

AURA

France

UN Sustainable Development Goals: Good health and well-being, Sustainable cities and communities, Responsible consumption and production, Life below water

AURA integrates nature inside workplaces. We help companies to improve well-being at work and we sensitize citizens to sustainable farming in the aim of developing green cities.

News: First investor arrives in september and we just hired 2 persons !

Contact: Thomas Demerens

Website: <http://www.aura-urbaine.com/>

AutoGrid

North America, Europe, Asia

UN Sustainable Development Goals: Affordable and clean energy, Industry, innovation and infrastructure, Sustainable cities and communities

AutoGrid provides a energy flexibility management system to optimize distributed generation, storage and demand response resources. This allows utilities, renewable energy project, and energy service providers to deliver clean, affordable and reliable energy in a distributed energy world.

News: AutoGrid provides a energy flexibility management system to optimize distributed generation, storage and demand response resources. This allows utilities, renewable energy project, and energy service providers to deliver clean, affordable and reliable energy in a distributed energy world.

Contact: Basile Bouquet

Website: <http://www.auto-grid.com/>

Bethnal Green Ventures

United Kingdom

UN Sustainable Development Goals: No poverty, Good health and well-being, Quality education, Gender equality, Clean water and sanitation, Affordable and clean energy, Decent work and economic growth, Reduced inequalities, Sustainable cities and communities, Responsible consumption and production, Climate action, Peace, justice and strong institutions

We help talented teams launch and scale tech for good ventures that significantly improve millions of lives and deliver great returns for investors.

News: We've now backed over 100 tech for good ventures since we started 2012, and our tech for good community has just passed 6000 members

Looking for: Exciting ventures using technology for social and environmental impact

Contact: Joe Ludlow

Website: <https://www.bethnalgreenventures.com/>

Bridge for Billions

United States, Spain

UN Sustainable Development Goals: Quality education, Gender equality, Decent work and economic growth, Industry, innovation and infrastructure, Partnerships for the goals

The entrepreneurship ecosystems of today are unfortunately not inclusive and systematically exclude low-income, women, rural and minority entrepreneurs. Bridge for Billions is an online incubator with the mission to democratize access to quality entrepreneurship support.

News: So far we've incubated 200+ entrepreneurs from 40+ countries

Our Founder and CEO Pablo has recently been named Forbes 30 under 30 and Ashoka Fellow 2017 for Spain

Funds Raised: Currently raising 1M\$

Looking for: Collaboration with corporates, universities and organisations, (like what we do with Accenture, Brown University, Ashoka Spain, ...)

Contact: Paula Abarca

CGON

United Kingdom

UN Sustainable Development Goals: Sustainable cities and communities, Climate action

No time to waste in fighting urban air pollution. With the transition to electric mobility is taking time, we can drastically reduce any vehicle's emissions NOW! Our invention, a unique pre-combustion hydrogen fuel additive, allows cities to breathe fresh air. Carbon - gone: CGON.

News: We are in the finals of Hello Tomorrow 2017 Mobility Challenge. After 3 years of prototyping, and 400+ successful pilot installations, we are launching our full-production version in September

Funds Raised: 500K\$

Looking for: Looking for an innovative corporate partner to do a high-visibility demo project with us

Contact: Igor Turevsky

Website: <http://www.cgon.co.uk/>

ChangeNOW – International Summit for Change

France

UN Sustainable Development Goals: No poverty, Zero hunger, Good health and well-being, Quality education, Gender equality, Clean water and sanitation, Affordable and clean energy, Decent work and economic growth, Industry, innovation and infrastructure, Reduced inequalities, Sustainable cities and communities, Responsible consumption and production, Climate action, Life below water, Life on land, Peace, justice and strong institutions, Partnerships for the goal

ChangeNOW has been founded with a mission to boost innovations that can improve the world and address social and environmental global issues by helping entrepreneurs raise funds, find their corporate partners, enlarge their media coverage, and simultaneously inspire the next generation of entrepreneurs.

News: Supported by the French Tech Ambassador Program and Accenture, ChangeNOW is launching its first edition at Station F, the world's biggest startup campus, on 29 & 30 September 2017. Among the attendees: 110+ speakers and projects, 100 investors, 50 media and 2000 participants, coming from more than 20 countries.

Looking for: Partnerships and Investors to fund our development and prepare next editions.

Contact: Santiago Lefebvre

Website: <http://www.changenow-summit.com>

CityTaps

France

UN Sustainable Development Goals: No poverty, Good health and well-being, Gender equality, Clean water and sanitation, Industry, innovation and infrastructure, Reduced inequalities, Sustainable cities and communities, Responsible consumption and production, Partnerships for the goals

Nearly a billion people living in the cities in the developing world lack running water at home. CTSuite, CityTap's solution, comprises prepaid smart (IOT) meters (CTmeter) and an accompanying software management system (CTCloud) to bridge the financial gap between the urban poor and water utilities.

News: Ongoing project in Niger, 1st Social impact Report published 2017 Awards: AFD & BpiFrance Digitale AfrGRantica. New Cities Global Urban Innovator, Cordes Fellow, VivaTech #PositivImpact, GSMA M4D Grant

Funds Raised: 420K€

Looking for: We are interested in meeting social impact investors and potential partners

Contact: Grégoire Landel

Website: <http://www.citytaps.org/>

ClearlySo

Contact: Mike Mompoti

Website: <http://www.clearlyso.com/>

Connected Eco

France

UN Sustainable Development Goals: Zero hunger, Clean water and sanitation, Responsible consumption and production

Connected Eco develops connected objects that answer to environmental issues. Our first product is a connected irrigation system that measures the needs in water of a soil through sensors. The collected information are sent to a watering system that will irrigate in a proper quantity a field.

Looking for: We're looking for investors to equip family farmers in Mali in 2018

Contact: Fatoumata Kebe

Website: <http://www.connected-eco.org/>

Cosmo Tech

France, USA

UN Sustainable Development Goals: Affordable and clean energy, Industry, innovation and infrastructure, Sustainable cities and communities

Cosmo Tech Applications allow business leaders and corporate executives to make optimal decisions in complex environments. Cosmo Tech Applications go beyond big data and artificial intelligence. They deliver decision makers augmented intelligence to make the best choice and chart the best strategy.

News: Jun. 2017 CoSMo Tech and CGI collaborate to secure nuclear reactor shutdowns
Feb. 2017 Alstom and CoSMo Tech to develop a new rail system efficiency application
French Tech Pass 2016-17
Red Herring 100 Europe - 2017
Red Herring 100 USA - 2017
Cleantech Global 100 - 2017
EY-Syntec Most Innovative Software Developer (France) 2016

Funds Raised: 8.2M\$

Looking for: Partnership with industry to deploy applications in the field of critical infrastructure management

Contact: Dylan Kissane, Grace Darguel

Website: <http://www.cosmotech.com/>

Daan Technologies

France

UN Sustainable Development Goals: Good health and well-being, Industry, innovation and infrastructure, Sustainable cities and communities, Responsible consumption and production

Daan's first product is Bob: the world's smartest, smallest and fastest dishwasher.

By using only 3L of water per cycle for washing the daily dishes of up to two persons compared to 15L for manual cleaning, Bob will allow people to save water.

Come to meet Bob, the first eco-friendly dishwasher!

News: Winner of the French Tech Diversity contest (2017)

Winner of the WILCO contest (BtoC 2017)

Looking for: Funding / financial supports. Networking. Partnerships

Contact: Lancelot Bourgeois

Darwin by ENGIE

France

UN Sustainable Development Goals: Industry, innovation and infrastructure, Climate action

Darwin is ENGIE's digital platform for renewable energies businesses running power generation facilities.

It improves the performance of wind and solar farms and develops predictive maintenance in real time 24/7, with a dedicated smartphone application.

News: Roll out of the Darwin project:

Darwin World: every ENGIE RES parks connect to Darwin

Darwin Solutions: ramp up of functionalities on the darwin systems (monitoring, reporting, benchmarking...)

Contact: Damien Terrie, Pia Shahabuddin

Website: www.engie.com

DELAPLACE.PRO

France

UN Sustainable Development Goals: Industry, innovation and infrastructure, Sustainable cities and communities, Climate action, Partnerships for the goals

Delaplace.Pro is a B2B marketplace connecting companies which get available storage spaces, with or without logistics services, and professionals who are looking for temporary storage solutions.

Are you looking for temporary storage? An available storage space in your company? Go on www.delaplace.pro

News: Based at Euratechnologies (Lille) and la Defense (Paris)

Selected by the Rolling Lab 2017 (Paris&Co Logistic Incubator)

More than 120 000 sq. m available on the platform.

Supported by Engie

Looking for: Feedback in order to improve our service to the top quality

Contact: Pierre -Arnaud Cartimel

Website: <https://www.delaplace.pro/>

ECHY

France

UN Sustainable Development Goals: Industry, innovation and infrastructure

ECHY has patented a solution which brings natural light inside of buildings using fiber optic cables. This system preserves all of the benefits of natural light (visual comfort, concentration) and brings life to dark spaces without emitting heat or UV.

News: We prepare the release of our new captation's system for 2018. ECLYPSE will be smaller and more efficient than its predecessors, and will be industrialized by our partner Michelin

Looking for: Continue to develop in France and internationally

Contact: Lucie Borel

Website: <http://www.echy.fr/>

ECOJOKO

France

UN Sustainable Development Goals: Responsible consumption and production, Climate action

Strongly reduces your energy consumption at home, without major renovation works or any sacrifice in comfort. With Ecojoko, follow your electricity consumption in real time, find out the consumption of each home appliance, implement the good actions to reduce your energy use at home.

News: After testing our products in 20 houses in France during one year, we are very excited because our new design will be available for pre-orders at the end of this year.

Looking for: We are looking for press coverage and partners to distribute the product

Contact: Laurent BERNARD

Website: <http://www.ecojoko.com/>

Ecole Démocratique de Paris

France

UN Sustainable Development Goals: Quality education, Peace, justice and strong institutions

Ecole Démocratique de Paris is a school aiming at the empowerment of children through freedom and personal responsibility within a democratic environment. Students are liberated from scheduled lessons and curriculum and free to immerse themselves in whatever interests engage them.

News: The democratic education movement is developing at a spectacular pace in France. In September 2017, 35 democratic schools opened their doors across the country, while there were none 3 years before

Looking for: Sharing our experience with mainstream education representatives. Funding

Contact: Yazid Arifi,

Website: ecole-democratique-paris.org

Enercoop

France

UN Sustainable Development Goals: Affordable and clean energy, Climate action

Chez Enercoop, nous aspirons à un autre modèle, juste et soutenable.

Notre vision : une société dans laquelle chacun peut accéder à une énergie 100% renouvelable ; un modèle sobre en énergie, local, organisé, dans le cadre d'une gouvernance partagée, transparente et démocratique.

News: Le réseau Enercoop vient de franchir le cap des 50000 clients dont 5000 professionnels et 27000 sociétaires

Contact: Julie Bénégui

Website: <http://www.enercoop.fr/>

Energie Futée

France

UN Sustainable Development Goals: Affordable and clean energy, Responsible consumption and production, Climate action

Energie Futée accompagne gratuitement les 7 millions de français chauffés au fioul et au propane vers des solutions moins chères, plus propres et offrant un meilleur confort. Sur notre site, ils bénéficient d'un accompagnement de A à Z dans leur projet de changement d'énergie de chauffage.

Contact: Benoit Deneau

Website: <https://www.energiefutee.fr/>

Engage

France

UN Sustainable Development Goals: Quality education, Sustainable cities and communities

Engage aims at empowering people towards societal transformation by a learning and acting journey.

Engage University enables its attendees to acquire knowledge and skills to become positive leaders.

Engage Action Hub allows its community members to develop or contribute to high-impact projects.

News: Engage develops a learning and acting platform that will support people's transformation process. Next gathering of the community will take place in the camp in November

Looking for: Engage is looking for investors to support its new technological challenges and foster its impact

Contact: Jérôme Cohen

Website: www.engage.world

ENGIE

France

UN Sustainable Development Goals: Affordable and clean energy, Industry, innovation and infrastructure, Sustainable cities and communities, Climate action

A major utility for over 150 years, ENGIE is convinced that the world of energy is undergoing a profound and lasting transformation. In this context, the Group has set itself the goal of becoming Europe's leader in energy transition, in particular by focusing on innovation.

News: Browse latest ENGIE's innovation news at: innovation.engie.com

Looking for: Calls for projects are regularly launched by ENGIE to get innovative proposals from startups

Contact: Gérald Bonnard

Website: www.engie.com

Epic Foundation

United States, United Kingdom, Belgium, France

UN Sustainable Development Goals: No poverty, Zero hunger, Good health and well-being, Quality education, Gender equality, Reduced inequalities

Epic Foundation bridges the gap between individual and corporate donors and organizations supporting children and youth globally. 100% of what we receive goes directly to NGOs. The cost of our services are 100% covered by Epic's board

Looking for: Epic aims to make giving the norm. We want to gather as many people and businesses around that goal

Contact: Myriam/Vander Elst

Website: <https://epic.foundation/fr>

FAMOCO

France

UN Sustainable Development Goals: Zero hunger

In collaboration with World Food Program, FAMOCO provides an off-the-shelf solution to digitalize food assistance vouchers. 8 millions beneficiaries in over 19 countries.

Funds Raised: 16M €

Contact: Lionel BARABAN

Website: <https://www.famoco.com/>

Faso-Soap

Burkina Faso

UN Sustainable Development Goals: Industry, innovation and infrastructure, Sustainable cities and communities, Climate action, Partnerships for the goals

Our team currently develop Faso Soap, a long-lasting mosquito-repellent soap to prevent malaria. In 2016, a child still dies every two minutes from this disease. Despite recent progress, 270 million people in Sub-Saharan Africa do not have any protection against mosquitoes

Contact: Franck Langevin

Website: <http://www.faso-soap.info/>

Finamatic

France

UN Sustainable Development Goals: other

Finamatic is the one-click funding platform helping you identify and apply to more than 2000 financial organisms.

News: After testing our products in 20 houses in France during one year, we are very excited because our new design will be available for pre-orders at the end of this year.

Contact: Kevin Spelle

Website: finamatic.fr

Fox Intelligence

France

UN Sustainable Development Goals: Climate action

Cleanfox reduces the carbon footprint of internet users by deleting their old commercial emails (newsletters, notifications...) and by allowing them to unsubscribe from unwanted newsletters. Each stored email generates 10g CO2 per year.

News: After testing our products in 20 houses in France during one year, we are very excited because our new design will be available for pre-orders at the end of this year

Funds Raised: 7M €

Contact: Louis Ballardur

Website: <http://www.cleanfox.io/>

Génie

France

UN Sustainable Development Goals: Other

Génie: 24/7 Home Repair Service. 1 minute to find a trustworthy and preapproved qualified professional thanks to our platform! Price of service is agreed in advance – no hidden charges. Our team of locksmiths, electricians, plumbers and repairmen guarantees your satisfaction or we do it again!

News: Génie started its activity in April 2017. Our successful first months of operations in the Paris area encourage us to develop our services throughout France

Looking for: Génie is looking for any partner to promote the platform, such as affiliate programs

Contact: Mathieu

Website: <http://www.legeniedesttravaux.com/>

Hello Garage

France

UN Sustainable Development Goals: Industry, innovation and infrastructure

Hello Garage

Provide in-home car maintenance services.

News: Selected by Carrefour Group and Total to improve Quality of Working Life

Looking for: Corporate partnership. Investors

Contact: Morgan Lebaillif

Website: www.hello-garage.fr

HESUS

France

UN Sustainable Development Goals: Affordable and clean energy, Industry, innovation and infrastructure, Other

Hesus Store is the web interface of Hesus. The aim is to provide our clients more environmental sustainability, economics benefits and to manage easier and faster soil issues

Contact: Victor Welschinger

Website: <http://www.hesus.eu/>

HundrEd

Finland

UN Sustainable Development Goals: Good health and well-being, Quality education, Gender equality, Reduced inequalities, Peace, justice and strong institutions, Partnerships for the goals

HundrED's mission is to help school change by seeking and sharing inspiring innovations in K12 education. Not only do we seek the best innovations but also the most openminded schools and teachers in the world, who are excited about these innovations.

News: We will release our first collection of 100 global education innovations in the 4th of October in Helsinki

Looking for: We are looking for great education innovations and schools and teachers who are excited about them

Contact: Saku Tuominen

Website: <http://www.hundred.org/>

Ichohup

France

UN Sustainable Development Goals: Good health and well-being, Industry, innovation and infrastructure, Sustainable cities and communities, Responsible consumption and production, Life on land

High- performance yet low-cost environmental connected sensors for smart uses: homes, cities, factories, vehicles, drones, etc. RIUM sensor: Augmented radioactivity understanding

News: Full commercial launch in December, in B2B and B2C! Fundraising in progress!

Funds Raised: 300K€

Looking for: We are looking for investors, customers for RIUM product and partnerships for new sensors

Contact: Gael PATTON

Website: <http://rium.ichohup.com/>

Ingenious Particles

France

UN Sustainable Development Goals: Good health and well-being, Quality education, Affordable and clean energy, Decent work and economic growth, Industry, innovation and infrastructure, Sustainable cities and communities, Climate action

We are an off-grid solar energy manufacturer for rural households living in Africa. We provide electricity and internet access for families & small businesses. Our products are scalable and recyclable. Our brand "OniriQ" aims at empowering rural people to enable them to achieve their dreams.

News: We are launching our brand new SolarBox at ChangeNOW: a solar and internet Box sold with a 50 W photovoltaic panel, a 19 inch TV and LED lamps.

Funds Raised: 110K€

Looking for: We are looking for distributors and partners for deployment

Contact: Rodolphe ROSIER

Website: <http://www.ingeniousparticles.com>

Kabubu

France

UN Sustainable Development Goals: Good health and well-being, Reduced inequalities

Kabubu - Friendship through Sport - is an app that allows refugees to find sports clubs in France and to connect to local people that practice sport through a buddy system. Our goal is to facilitate the integration of refugees into society.

Looking for: We are looking for partnerships, sponsors, sports equipment and donations.

Contact: Paula Asseff

KERMAP

France

UN Sustainable Development Goals: Good health and well-being, Sustainable cities and communities, Responsible consumption and production, Climate action, Life on land, Partnerships for the goals

KERMAP provides solutions to support cities in their ecological transition (quality of life enhancement, climate change adaptation). Our services are based on earth observation data and used in a broad range of applications such as citizen comfort, urban climate, estimate carbon storage

Contact: Antoine Lefebvre

Website: <http://www.kermap.com/>

KOIS invest

Belgium

UN Sustainable Development Goals: No poverty, Good health and well-being, Quality education, Gender equality, Decent work and economic growth, Partnerships for the goals

KOIS Invest devises innovative solutions to societal problems and partners with impact businesses and investors to generate sustainable outcomes and financial returns. We provide asset management, innovative finance, and consulting services across key sectors to tackle societal issues worldwide.

News: We participated to the launch of the first Humanitarian Impact Bond - CHF 26 million - in partnership with the ICRC. This bond will fund the construction of physical rehabilitation centres in Africa

Contact: Serena Guarnaschelli

Website: www.koisinvest.com

La French Tech

France

UN Sustainable Development Goals: No poverty, Zero hunger, Good health and well-being, Quality education, Gender equality, Clean water and sanitation, Affordable and clean energy, Decent work and economic growth, Industry, innovation and infrastructure, Reduced inequalities, Sustainable cities and communities, Responsible consumption and production, Climate action, Life below water, Life on land, Peace, justice and strong institutions, Partnerships for the goals, Other

For some years now, the French Tech ecosystem has seen a spectacular growth, driven by a new generation of entrepreneurs, investors, engineers, and other talented people. The number of startups is exploding, fundraisings are exponential, and the number of international market leaders is growing: BlaBlaCar, DBV Technologies, Criteo to name a few. This vibrant ecosystem is called "La French Tech," a movement for entrepreneurs, by entrepreneurs and backed by the French Tech Initiative, an innovative public policy created by the French Government in 2013. The French Tech Initiative is boosting this collective dynamic, and its actions have taken part in establishing this ecosystem within the French economic landscape.

News: The French Tech Central space at Station F will open soon! For now, you can make an appointment with public services
